

SiriusXM Reports Third Quarter 2023 Operating and Financial Results

- Third Quarter 2023 Revenue of \$2.27 Billion
- Net Income of \$363 Million, Up 47% Year-Over-Year; Diluted EPS of \$0.09
- Adjusted EBITDA of \$747 Million, Up 4% Year-Over-Year
- Free Cash Flow of \$291 Million
- Year-to-Date Capital Returns to Stockholders Total \$555 Million
- Company Reiterates 2023 Financial Guidance; Plans November 8th Next Generation Event

NEW YORK – October 31, 2023 – SiriusXM today announced third quarter 2023 operating and financial results, including revenue of \$2.27 billion, which remained relatively flat compared to the same period in 2022. The company recorded net income of \$363 million in the third quarter of 2023, an increase from the \$247 million recorded in the prior year period. Net income per diluted common share for the third quarter was \$0.09.

Adjusted EBITDA of \$747 million in the third quarter of 2023 increased 4% when compared to \$720 million in the third quarter of 2022.

The company delivered \$291 million of free cash flow during the third quarter of 2023, down from \$329 million in the prior year period. The reduction in free cash flow was primarily driven by increases in satellite and non-satellite capital expenditures.

"We are very excited to unveil SiriusXM's next-generation platform on November 8th, a key component of our longterm vision for the company's consumer offerings," stated Jennifer Witz, CEO of SiriusXM. "Our content portfolio continues to differentiate us in the audio marketplace with exclusive access to live sports, talk, music, and one-of-akind content. The ongoing enhancements to our user experience will ensure that our unique suite of content resonates with our audience in increasingly personalized ways. This leading content and upcoming product upgrade will be paired with our unmatched business model, which we expect to continue delivering significant and growing free cash flow in the years ahead."

"SiriusXM delivered solid results for the quarter, with principally flat year-over-year subscriber and advertising revenue, continued strong margins, and record quarterly adjusted EBITDA," stated Tom Barry, Chief Financial Officer. "During the third quarter, we returned \$165 million to our stockholders consisting of \$93 million of dividends and \$72 million of share repurchases. Last week, we announced a 10% hike to our dividend – our seventh straight double-digit increase since its inception in 2016. Following receipt of Liberty Media's proposal by our special committee of independent directors, we suspended share repurchases and expect to be out of the market while the proposal and any transaction is pending. SiriusXM plans to maintain its long-term net debt-to adjust EBITDA target of low- to mid-3 times, and ended the third quarter with a ratio of 3.3 times. The company does not have any bond maturities until 2026, expects continued robust cash generation, and with access to approximately \$1.6 billion in untapped revolver capacity, we continue to maintain significant balance sheet flexibility," Barry further emphasized.

SEGMENT HIGHLIGHTS

Sirius XM Holdings operates two complementary audio entertainment businesses — one of which is referred to as "SiriusXM" and the second of which is referred to as "Pandora and Off-Platform." Further information regarding these two segments will be contained in the company's Quarterly Report on Form 10-Q for the quarter ended September 30, 2023. The financial highlights below exclude the impact of share-based payment expense.

SiriusXM Third Quarter 2023 Segment Highlights

Total Subscribers of 34 Million

During the third quarter of 2023, SiriusXM self-pay subscribers decreased by 96,000 and paid promotional subscribers increased by 2,000. Total subscribers were relatively flat at 34 million on September 30, 2023, compared to September 30, 2022. The SiriusXM trial funnel stood at approximately 7.5 million at the end of the quarter, flat compared to the second quarter 2023, and up from 7.0 million at the end of the third quarter 2022. Self-pay monthly churn remained low at approximately 1.6% but increased approximately 11 basis points versus the third quarter 2022, primarily driven by vehicle-related turnover.

Revenue of \$1.7 Billion

During the third quarter, SiriusXM's total revenue was \$1.7 billion, down 1% compared to the prior year period. Subscriber revenue in the segment was \$1.6 billion, roughly flat compared to the prior year period. Average revenue per user (ARPU) of \$15.69 remained relatively flat year-over-year. ARPU was boosted by increases in certain full-price subscription rates, offset by the impact of the mix of self-pay promotional plans, a reduction in rates associated with paid promotional plans from automakers as well as a higher balance of these paid promotional subscribers, including unsold vehicle inventory, and lower advertising revenue.

Gross Profit of \$1.0 Billion

Total cost of services at SiriusXM of \$674 million increased by 1% for the 2023 quarter compared to the corresponding quarter in 2022. Gross profit at SiriusXM totaled \$1.0 billion, a 3% decrease compared to the prior year period, producing a gross margin of 61%.

Expanded Content Offering

In the third quarter, SiriusXM renewed commitments with some of its key talent, including a multi-year extension with Megyn Kelly, maintaining her position with SiriusXM for the upcoming presidential election, and the launch of the third season of Let's Go with Tom Brady, Larry Fitzgerald, and Jim Gray. The company also extended its agreement to continue carrying FOX News, FOX Business and FOX News Headlines 24/7.

Along with new music channel pop-ups and on-air performances, SiriusXM also produced exclusive events that brought Ed Sheeran to an intimate venue in the Hampton's as he stepped away from his arena tour and SiriusXM celebrated hip hop's 50th anniversary with Wu Tang Clan in Queens, NY, bringing fans closer to the artists and music they love.

Product Highlights

The next generation SiriusXM platform, which will be unveiled in the following days at the company's Next Generation Industry and Press Event on November 8th, will deliver improvements across discoverability, personalization, and ease of use to both streaming and in-car subscribers. As the company prepares for launch, first of the new app, followed by in-car updates, it remains focused on deploying technology that serves to bring to life SiriusXM's extensive catalog and enhance listeners' ability to go deeper into what they love.

SiriusXM also recently announced Ford plans to integrate SiriusXM as a standard feature in traditional F-150's beginning with the 2024 model year, a vehicle that has held the title of America's best-selling vehicle for 41 consecutive years.

Pandora and Off-Platform Third Quarter 2023 Segment Highlights

Advertising Revenue of \$418 Million

Advertising revenue in the Pandora and Off-Platform segment for the third quarter of 2023 reached \$418 million, an increase of 3% year-over-year and 5% sequentially. The increase is attributable to strong growth in the company's programmatic and podcasting advertising sales.

Total Advertising-Supported Listener Hours of 2.64 Billion

Monthly Active Users (MAUs) at Pandora were 46.5 million in the third quarter of 2023, down from 48.8 million in the prior year period. Total ad-supported listener hours were 2.64 billion in the third quarter of 2023, down from 2.75 billion in the 2022 period. Average monthly hours per ad-supported user grew 2% to 21.3 in the third quarter of 2023 compared to 20.8 in the third quarter of 2022.

Self-Pay Subscribers of 6.1 Million

Self-pay subscribers to the Pandora Plus and Pandora Premium services decreased modestly in the third quarter of 2023 to end the period at 6.1 million.

Gross Profit of \$180 Million

Subscriber revenue of \$132 million remained flat year-over-year, advertising revenue increased by 3%, and total cost of services increased by 1% during the third quarter of 2023. This resulted in gross profit in the Pandora and Off-Platform segment of \$180 million during the third quarter of 2023, an increase of 4% compared to the corresponding 2022 period, producing a gross margin of 33%.

ADDITIONAL FINANCIAL HIGHLIGHTS

During the third quarter of 2023, SiriusXM reduced general & administrative expense by 8% year-over-year to \$108 million and reduced sales and marketing by 16% year-over-year to \$224 million. In support of the upcoming digital product launch, engineering, design, and development expense rose by 3% year-over-year to \$61 million.

2023 FULL-YEAR FINANCIAL GUIDANCE

The company reiterated its full-year 2023 guidance for revenue, adjusted EBITDA, and free cash flow:

- Total revenue of approximately \$9.0 billion,
- Adjusted EBITDA of approximately \$2.75 billion, and
- Free cash flow of approximately \$1.15 billion.

(1) The following table reconciles cash, cash equivalents and restricted cash per the statement of cash flows to the balance sheet. The restricted cash balances are primarily due to letters of credit which have been issued to the landlords of leased office space. The terms of the letters of credit primarily extend beyond one year.

Unaudited Results

Set forth below are our results of operations for the three and nine months ended September 30, 2023 compared with the three and nine months ended September 30, 2022. Legal settlements and reserves and share-based payment expense have been excluded from cost of services line items and presented as their own line items in the table below, as this is consistent with how the segments are evaluated on a regular basis.

Key Financial and Operating Metrics

A full glossary defining our key financial and operating metrics can be found in our Quarterly Report on Form 10-Q for the quarter ended September 30, 2023.

Subscribers and subscription related revenues and expenses associated with our connected vehicle services and Sirius XM Canada are not included in Sirius XM's subscriber count or subscriber-based operating metrics.

Set forth below are our subscriber balances as of September 30, 2023 compared to September 30, 2022:

As of Septem	ber 30,	2023 vs 2022 Change		
2023	2022	Amount	%

About SiriusXM

SiriusXM is the leading audio entertainment company in North America with a portfolio of audio businesses including its flagship subscription entertainment service SiriusXM; the ad-supported and premium music streaming services of Pandora; an expansive podcast network; and a suite of business and advertising solutions. Reaching a combined monthly audience of approximately 150 million listeners, SiriusXM offers a broad range of content for listeners everywhere they tune in with a diverse mix of live, on-demand, and curated programming across music, talk, news, and sports. For more about SiriusXM, please go to: www.siriusxm.com.

This communication contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements include, but are not limited to, statements about future financial and operating results, our plans, objectives, expectations and intentions with respect to future operations, products and services; and other statements identified by words such as "will likely result," "are expected to," "will continue," "is anticipated," "estimated," "believe," "intend," "plan," "projection," "outlook" or words of similar meaning. Such forward-looking statements are based upon the current beliefs and expectations of our management and are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are difficult to predict and generally beyond our control. Actual results and the timing of events may differ materially from the results anticipated in these forward-looking statements.

The following factors, among others, could cause actual results and the timing of events to differ materially from the anticipated results or other expectations expressed in the forward-looking statements: Risks Relating to our Business and Operations: There is significant uncertainty regarding the terms, timing and market reaction to our potential combination with NewCo; We have been, and may continue to be, adversely affected by supply chain issues; we may be adversely affected by the war in Ukraine; we face substantial competition and that competition is likely to increase over time; if our efforts to attract and retain subscribers and listeners, or convert listeners into subscribers, are not successful, our business will be adversely affected; we engage in extensive marketing efforts and the continued effectiveness of those efforts is an important part of our business; we rely on third parties for the operation of our business, and the failure of third parties to perform could adversely affect our business; failure to successfully monetize and generate revenues from podcasts and other non-music content could adversely affect our business, operating results, and financial condition; we may not realize the benefits of acquisitions or other strategic investments and initiatives; and the impact of economic conditions may adversely affect our business, operating results, and financial condition. Risks Relating to our Sirius XM Business: A substantial number of our Sirius XM service subscribers periodically cancel their subscriptions and we cannot predict how successful we will be at retaining customers; our ability to profitably attract and retain subscribers to our Sirius XM service is uncertain; our business depends in part upon the auto industry; failure of our satellites would significantly damage our business; and our Sirius XM service may experience harmful interference from wireless operations. Risks Relating to our Pandora Business: Our Pandora ad-supported business has suffered a substantial and consistent loss of monthly active users, which may adversely affect our Pandora business; our Pandora business generates a significant portion of its revenues from advertising, and reduced spending by advertisers could harm our business; our failure to convince advertisers of the benefits of our Pandora ad-supported service could harm our business; if we are unable to maintain revenue growth from our advertising products our results of operations will be adversely affected; we are a "controlled company" within the meaning of the NASDAQ listing rules and, as a result, qualify for, and rely on, exemptions from certain corporate governance requirements; our principal stockholder has significant influence, including over actions requiring stockholder approval, and its interests may differ from the interests of other holders of our common stock; changes to mobile operating systems and browsers may hinder our ability to sell advertising and market our services; and if we fail to accurately predict and play music, comedy or other content that our Pandora listeners enjoy, we may fail to retain existing and attract new listeners. Risks Relating to Laws and Governmental Regulations: Privacy and data security laws and regulations may hinder our ability to market our services, sell advertising and impose legal liabilities; consumer protection laws and our failure to comply with them could damage our business; and failure to comply with FCC requirements could damage our business. Risks Associated with Data and Cybersecurity and the Protection of Consumer Information: If we fail to protect the security of personal information about our customers, we could be subject to costly government enforcement actions and private litigation and our reputation could suffer; and interruption or failure of our information technology and communications systems could impair the delivery of our service and harm our business. Risks Associated with Certain Intellectual Property Rights: The market for music rights is changing and is subject to significant uncertainties; our Pandora services depend upon maintaining complex licenses with copyright owners, and these licenses contain onerous terms; the rates we must pay for "mechanical rights" to use musical works on our Pandora service have increased substantially and these rates may adversely affect our business; failure to protect our intellectual property or actions by third parties to enforce their intellectual property rights could substantially harm our business and operating results; some of our services and technologies may use "open source" software, which may restrict how we use or distribute our services or require that we release the source code subject to those licenses; and rapid technological and industry changes and new entrants could adversely impact our services. Risks Related to our Capital and Ownership Structure: We have a significant amount of indebtedness, and our debt contains certain covenants that restrict our operations; and while we currently pay a guarterly cash dividend to holders of our common stock, we may change our dividend policy at any time. Other Operational Risks: If we are unable to attract and retain qualified personnel, our business could be harmed; our facilities could be damaged by natural catastrophes or terrorist activities; the unfavorable outcome of pending or future litigation could have an adverse impact on our operations and financial condition; we may be exposed to liabilities that other entertainment service providers would not customarily be subject to; and our business and prospects depend on the strength of our brands. Additional factors that could cause our results to differ materially from those described in the forward-looking statements can be found in our Annual Report on Form 10-K for the year ended December 31, 2022, which is filed with the Securities and Exchange Commission (the "SEC") and available at the SEC's Internet site (http://www.sec.gov). The information set forth herein speaks only as of the date hereof, and we disclaim any intention or obligation to update any forward looking statements as a result of developments occurring after the date of this communication.
